luxembourg internet-days

November 12 & 13, 2019

Network & Cloud Security | E-commerce & Digitalisation

Luxembourg | @ Chamber of Commerce | a LU-CIX event

Now in its sixth edition, the Luxembourg Internet Days event, with its inimitable technical and pragmatic approach, is an unmissable occasion for ICT professionals to gather, learn and share on two hot topics with trendsetters and sector experts.

Designed around keynote speeches and interactive discussions along with a focused exhibition area, the event attracts an increasing number of visitors from the Greater Region and beyond.

The two themes for 2019 will be **Network & Cloud Security** on November 12 and **E-commerce & Digitalisation** on November 13; both are very sensitive topics, fundamentally interdependent and vital for the economy in general. This year, the organisers have chosen to put Luxembourg's neighbour **France** in the spotlight, for both its strong involvement in the fight against cybercrime and its inspiring technological dynamism.

The increasingly rich agenda will also offer open and focused workshop sessions given by expert partners to help participants get practical and concrete answers to their questions or situation. Following the success of the LUNOG1 (LUxembourg Network Operator Group) launch event in 2018, **LUNOG2** will be held this year with the participation of partners such as RIPE NCC on November 12 afternoon.

Join us in Luxembourg, the trusted ICT Hub at the heart of Europe and enjoy an enriching gathering!

Claude Demuth
Secretary of LU-CIX ASBL

Marco Houwen
Chairman of LU-CIX ASBL

Luxembourg Internet Days is one venue, two days and the best opportunity to feel the pulse of the ICT sector in Luxembourg, the Greater Region, and beyond.
With its unique and successful design, the Luxembourg Internet Days has become a "must" event for ICT professionals and experts. Gathering more than 1,100 visitors over two days for conferences with around a dozen keynote speakers, high-level interactive discussions, challenging showcase presentations and a full exhibition hall, LU-CIX is proud to present the 2019 edition of the region's first real cross-media and cross-industry event from ICT to ICT professionals, dedicated to the Internet relative and Digital dedicated ecosystems.

Participants can expect:
- Keynote speeches by sector experts,
- Panel discussions,
- Showcase presentations,
- A 50-booth exhibition hall (1),

- 50-min workshop sessions with sector experts,
- Business speed-dating (2),
- Sunset Eve, the unique networking evening (3),…

SPECIAL IN 2019

On November 12
Network & Cloud Security – from 9:00 am to 4:00 pm
The focus will be on means and solutions for secure Digital Network Architecture: how to secure, monitor and analyse Networks in order to identify and prevent suspicious activities and malicious behaviour on Networks and ways to the Cloud.

LUNOG2 – late afternoon
Following the success of LUNOG1, a second edition of this event will take place in partnership with RIPE NCC. LUNOG2 is open to all LUNOG platform members (LUxembourg Network Operator Group) **as well as to any person interested in Network and system management.**

Sunset Eve – from 6:30 pm to 11:00 pm
This networking evening is a great opportunity for all participants to gather and share some valuable time with the event's guest keynote speakers and international experts.

On 13 November
E-commerce & Digitalisation – from 9:00 am to 3:00 pm
A day to inform professionals about technical best practices related to their presence on the Internet, in the fields of safety, compliance with GDPR, changes on geo-blocking and more. The session will look at how integrating the challenges related to the visibility on the web has become crucial, whether for commercial or corporate websites.

Focused workshops will be given by sector experts **during the two days** (4).

EVENT PARTNER COUNTRY : FRANCE

As a leading nation when it comes to the fight against cyber-attacks and the securing of Networks, France is expertly positioned to encourage government and SMEs' creativity to combat cybercrime.
The nation's dedicated involvement in this key domain also generates innovative initiatives gathered under the French Tech umbrella, for instance, and provides an insightful

of the prodigious advances that digitalisation allows.
A space within the Expo will be reserved for French companies wishing to create opportunities to explore new or strengthen existing cross-border collaborations.

Stands with a favourable rate are available on request and subject to availability.

Two days - two audience :

On November 12
The day is directed primarily at CEOs, Administrative Directors, business executives, CTO, CIO, CISO and any decision makers from big groups or SMEs looking for solutions to their Network or Cloud Security challenges.

On November 13
Are expected leaders from all businesses of all sizes and sectors, from European institutions to craftsmen, IT directors, CISOs, DPOs, marketing or communication managers, security consultants, etc.

A FREE EVENT
Registration is subject to validation by the organisers. Priority is given to professional end users and decision makers, operations and experts in charge of security and web presence in companies as well as partners of the event.

(1) Booth spaces and presentation slots are limited in number! Contact the organisers as soon as possible to book yours.
For French companies, 2-day booths are provided at a special rate upon request and depending on demand and availability.

(2) Business speed-dating tool available from end-September for all registered participants; registration at www.luxembourg-internet-days.com

(3) Paid admission upon reservation at event@lu-cix.lu

(4) Check out the event agenda on the website
